

I am in support of maintaining the current FM translator service. The K-Love signal is heard throughout many communities, and specifically on 88.9 FM in the Oklahoma City area. I reside in Shawnee and personally know many people that listen to K-Love at home and in their cars. It is unquestionably the best Christian station on the air, and provides family based quality listening. Their service reaches out to many patrons in a refreshing and uplifting way that is not heard on other stations. The effects of losing K-Love would be adverse to many needing to be inspired by the Christian music and God's spoken word. They are truly carrying out the work of the Lord and it is in the best interest of the general public to keep the current translator service.
